

Sustainable Homes Expo

Saturday 26 November | 10am – 3pm | Campbelltown Function Centre

Program

10.00am – 3.00pm

Exhibits

New Homes Session: 10.30am - 12 pm

10.30am – 10.35am	Welcome and introduction	
10.35am – 10.50am	<p><i>Why build sustainably?</i></p> <p>We know that from energy use to greenhouse gas emissions, the construction industry plays a big part in impacting our experience and interaction with the environment. But how well built are current houses in the market, and what do we stand to lose if we continue to build as usual?</p>	<p>Ken Long Chairperson, Adelaide Sustainable Building Network (ASBN)</p>
10.50am – 11.05am	<p><i>Efficiency and sustainability by design</i></p> <p>The best and cheapest way to build an efficient home is to make sure your house is designed right. And it can start as early as picking the right land to build on! Come along to learn about how to apply passive house design principles to your new home. Let nature cool, heat, and light your home for you!</p>	<p>Lachlan McEwen Founder and Director, Harmonic Design</p>
11.05am – 11.20am	<p><i>Why electrify everything?</i></p> <p>What is an electrified household and how does it affect our energy bills and carbon footprint?</p>	<p>Luke Morton Co-founder and COO, iO Energy</p>
11.20am – 11.35am	<p><i>How much does it all cost?</i></p> <p>How much does it cost to build sustainably, and how much will we save in the long run?</p>	<p>Mark Thomas Director Goodhouse Architecture</p>
11.35am – 12.00pm	Panel Discussion	

Existing Homes Session: 1.00pm - 2.30 pm

1.00pm – 1.05pm	Welcome and introduction	
1.05pm – 1.20pm	<p><i>Choosing a sustainability mindset</i></p> <p>Sustainability is not just about saving the planet. Having a sustainable home also means a more comfortable, climate resilient home that could save you money in the long run!</p>	<p>Ben Walsham Senior Sustainability Consultant, SUHO</p>
1.20pm – 1.35pm	<p><i>Quick fixes for better living</i></p> <p>Whether you are a home owner or renter, there are changes you can make that could increase comfort in your home, save money and reduce your environmental impact!</p>	<p>John Boland Professor, UniSA</p>
1.35pm – 1.50pm	<p><i>Renovating for efficiency</i></p> <p>Have a little extra cash? There are so many things you could do in your home to help with future bills and make your homes more resilient in a changing climate. But what should you tackle first for the most value for money?</p>	<p>Paul Hendy Director, TS4 Living</p>
1.50pm – 2.05pm	<p><i>Energy, solar, battery, EVs – How do they work together?</i></p> <p>Thinking of installing solar, battery, and/or getting an electric vehicle? Find out what infrastructure you may need to make the most of your on-site power generation!</p>	<p>Jenny Paradiso Co-founder and Managing Director, Suntrix</p>
2.05pm – 2.0pm	Panel Discussion
